

## Connect Access Card for The Moral of the Story

Now in its seventh edition, *The Moral of the Story* continues to bring understanding to difficult concepts in moral philosophy through storytelling and story analysis. Students will study ethical relativism by examining the film *Avatar*, explore utilitarianism through *The Invention of Lying*, and discuss Kants deontology by examining Woody Allens *Match Point*. They will consider virtue ethics by juxtaposing Platos *Myth of the Cave* with the themes in *The Truman Show*. Rosenstands work is lively and relatable, and students will enjoy discussing examples from contemporary film, fiction narratives, and even popular comic strips. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective. It provides tools that make assessment easier, learning more engaging, and studying more efficient. For instance, Connect contains SmartBook, the first and only adaptive reading experience available for the higher education market. Powered by the intelligent and adaptive LearnSmart engine, SmartBook facilitates the reading process by identifying what content a student knows and doesnt know. As a student reads *The Moral of the Story*, the material continuously adapts to ensure that he or she is focused on the content most crucial to closing specific knowledge gaps.
