

1000 Mythological Characters Briefly Described: Adapted to Private Schools, High Schools (Classic Reprint)

There are many expressions which, though simple in themselves, must forever remain beyond the grasp of human comprehension. Eternity, that which has neither end nor beginning, baffles the most profound human thought. It is impossible to think of a point beyond which there is absolutely nothing, or to imagine the passing of a million years without bringing us one day or one minute nearer to their close. Suppose that one could fix upon the terminal point, we would still fancy something beyond that, and then some period still more remote would present itself, and so on ad infinitum. The same insurmountable difficulty confronts us when we seek to imagine a First Cause. (Typographical errors above are due to OCR software and do not occur in the book.)
