

Brainstorms: Philosophical essays on mind and psychology

This collection of 17 essays by the author offers a comprehensive theory of mind, encompassing traditional issues of consciousness and free will. Using careful arguments and ingenious thought-experiments, the author exposes familiar preconceptions and hobbling institutions. The essays are grouped into four sections: Intentional Explanation and Attributions of Mentality; The Nature of Theory in Psychology; Objects of Consciousness and the Nature of Experience; and Free Will and Personhood.
