

The Wild Tribes of India (Classic Reprint)

Excerpt from The Wild Tribes of India Without attaching much importance to the distinctions Aryan and Non-Aryan, it must be conceded that the population of India may be broadly arranged under two distinct divisions namely, the Aboriginal and the Immigrant. Between Kurrachee on one side and Chittagong on the other there are more than a hundred passes through the mountain barriers that invest the country - that is, the Suleiman, the Himalaya, and the Arracan mountains; and these have given various races of invaders admittance into a land famous for its wealth from time anterior to the dawn of legend and chronicle.
