

China Tax System for Fifty Years (Revised Edition) (Chinese Edition)

This book is based on literature relevant to the CPC central committee, the National Peoples Congress and the state council, and authoritative information on financial and tax department. It provides a rather comprehensive, systematic and synoptic review of tax system, tax collection and management system and tax authorities, tax cadres development; and a preliminary prospect of the future trend since the founding of the Peoples Republic of China 50 years ago. The aim is to reflect the development of Chinese tax tortuous course and great achievements since half a century ago, and to summarize positive and negative experience, providing reference for Chinas tax further reform and development of Chinese taxation.
