 characteristics of the Hui in the book and its distinctive style are the greatest common fiction language styles. Description is also very in place in terms of daily life. I believe it will make the readers within the Hui feel warm and readers outside it feel novel and interesting, which is the most basic characteristic of its details and is extremely valuable. The author hopes to arouse peoples awareness of survival, environmental and forward-thinking awareness through a story occurred during the Haiyuan earthquake which shocked the world, by historical changes of Haiyuan County and by real life of Haiyuan people.
