

## Chinas Regional Fault Lines (World Politics Review Features)

Among the challenges facing China rise, Beijing must resolve regional dilemmas that threaten to undermine the country's cohesiveness. Massive internal migration from rural to urban areas has exacerbated pre-existing inequalities. Ethnic autonomy movements, such as that of Xinjiang's Uighur population, have gained global traction as a result of China's opening to the world. And the tensions due to Hong Kong's separate governance system have implications for an eventual accommodation with Taiwan and the prospects for a Greater China.
