

## Suicide of a Nation-Fracking the American Mind (Ayame Book 5)

\*This fifth book is an interactive process that trains your mind as you read to see through propaganda and regain your power to act decisively.\* Discussion by Amanda James This book is copyrighted to D. Jon Harrison. It is the combined effort of four very passionate writers, of which I am one, Amanda James. So that you understand our intent, all four of us are highly politically active, and as such, this work hits hard at that venue. It is designed specifically to give the average citizen a shot at becoming empowered again before this country crashes down on its ears. However, this is anything but a political statement as it is written by four people who have devoted their lives to the art of Neigong/Kikou, a practice of absolute Self-Command that utilizes the mind-set of abandoning fear and obsession. It is an art that teaches the students that they are born empowered with mind, body, soul AND a form of energy very few in the West know exists. We are here to open a long closed door to an art that is continually used by major corporations, governments and religions to control their business at subtle energy levels. The last thing they want you to know is how to attain the use of the same thing, allowing you to walk away from the blindness the big three controllers have told you is fantasy so that they may keep you in their grips. Learning this process can help you to walk away from the extreme brain washing, that which we call mind fracking, and find a path to thinking for yourself again. \*\*\*\*\* The greatest abuse of power any man or woman can practice is that designed to weaken the already weak and strengthen those in power who abuse power. No other act dissolves honor, dignity and integrity at a higher level. Woman Unformed This forth edition also includes a discussion at the beginning of the book that describes why we removed the series from the public eye for a short period and why we closed the educational

sites, Ayame Toriigi Way and Streams Breath, permanently. Click on the book cover to read this preface.
