

Cannibalism

Psychologist Hans Askenasy has put together the first comprehensive history of a subject combining violence, horror, and exotic customs. In Part One of his study, Dr. Askenasy gives a historical and geographic overview of humankind's practice of and attitudes toward cannibalism. Part Two discusses motivational factors for cannibalism, including famines (natural and man-made), survival in extreme situations, magic, ritual, and madness. Among the people and events covered are the siege of Leningrad by the Nazis; the wreckage of the frigate Medusa; the Donner Party; the notorious nineteenth-century Colorado Man-Eater, Alferd Packer; the Andes plane crash of 1972; Elizabeth Bathory (b. 1560), the Vampire Lady of the Carpathians; and Georg Haarmann, who ground up his victims and sold them as potted meat. In Part Three, *Cannibalism in Culture and Society*, Askenasy addresses our continuing fascination with cannibals, man-eating witches, werewolves, and vampires in literature, myth, and the media, ranging from Francis Ford Coppola's film version of Bram Stoker's *Dracula* and Anne Rice's *Vampire Chronicles* to the blood curdling events surrounding the cases of Issei Sagawa, Jeffrey Dahmer, and the Russian schoolteacher-turned torturer, Andrei Romanovitch Chikatilo.
