

Black and Proud

Black and Proud is a collection of essays regarding the black experience in America and focuses on the trials and struggles of African-Americans. Black and Proud goal is to educate, enlighten, encourage, and improve the quality of life for African Americans and the community at large. Far too long have the black community been degraded and the people dehumanized. It is through our faith in God that sustained us and carry us through. God enable us as black people to remain strong and committed. As long as God is with us we can never be defeated nor discouraged.
